These SPRINGS consist of Warrs, Blue and Black Suprior, Chalvararrs, Lukswrone and Slare, all baving their fountains within a circumference of thirty yards—the work of Nature's own labratory. They send footh a sufficient quantity of pure water to supply many thousands of persons daily. They are altuated in a flat, or rather basin, the ground gradually rising to the south and east until it reaches the western base of the Mamasantien, from which is presented to the eye of the beholder one of the most enchanting landscape views in the country. To the south, south east, and east, there are a number of moundarising up at distances of from 25 to 100 yards, and from 26 to 100 feet above the level bottom in front and to the north-west of the Springs. Many of these elevations can be approached from the east or rear, by a gentle sacent. The Fort Mountain, with its, picturesque senery, list justing square, its deep ravines, and its lotty peaks, presents a panorama, which, for bold outline and pleasing variety, is unsurpassed by any mountain accency in Virginia. Indeed, the scenery presented to view from the summits of the Mansanutten and Fort Mountains, embracing the Page and Warren and Shenandoah Valleys, must be seen to be appreciated.

In addition to the Springs proper, there are a number of others in the vicinity, the principal of which are: 1. The celebrated Mountain Spring, 160 yards distant; 2. The Cold Spring, a short distance from this; 3. Immediately above is a Chalybeate, sending forth a limpid stream; 4. To the south from the Springs, about three quarters of a mile, gushing from the mountain side, is the Sweet Chalybeate Spring, The test of possess peculiar medicinal goaliles, completes the first.

Visiters coming from the North or East, can enter the picturesque valley through the narrow passage formed by the proximity of the mountains,

On arriving at the Springs, the invalid has at once withdrawn from the cares and perplexities, folis and monetony of the busy world, and may recuperate his exhausted energies by quaffing the pure, waters that incessantly flow around him, and partaking of the rich viands that are delily irrepared for the nourishment of his frail body.

We will state, for the benefit of those who may not be aware of the fact, that we own a large farm attached to the Springs, where persons can have their horses pastured or stabled as they may priser.

HARCOURT, HOWARD & CO. CONSUMPTION CURABLE!

General Sanasrada, "annoors of "Wister? Halsam of Wild Cherry."

Rush Creek township, Fairfield co. Feb. 25, 1852.

Dear Sir:—As I consider that my fife has been greatly protonged by my being cured of Consumption by the use of "Dr. Wister? Balsam of Wild Cherry," I will state the symptoms of my case, that others similarly afficied may be induced to try this invaluable remedy. I experienced great difficulty in breathing; had the hectic fever with violent flushes of heat and frequent cold chills, with severe pain in my side and breast accompanied by a very bad cough; was very restless at nights, and had great night sweats, persisting, I should say, at least two gallons a might, wetting the bed completely through. I had not been able to work for scars. But I was much emaciated, and almost helpless when I commenced using Wistar's Balsam of Wild Cherry. I have used in all 13 boltles, jand I am now free from all those complaints, for my health is good.

I am mow 65 years old, and have not taken any of the Balsam since 1846, because my health is so good as not to require any medicines. But if I, should have any return of my former symptoms, I should use Wistar's Balsam of Wild Cherry. I procured the medicine of Messra. Fall & McGracken, your agents in Lancaster, Ohlo.

The genuine Wistar's Balsam of Wild Cherry has a fee

The genuine Wistar's Baisson of Wild Cherry has a factuable of the signature of Henry Wistar, M. D., Philadelphia, and "Sausori & Park," on a finely executed steel engraved wrapper. No other can be genuice.
